

# I'm Down

## Aaliyah

I'm down  
With the way that you want me to be  
And I would do anything for you baby  
I'm down  
With the way that you want me to be  
And I would do anything for you Boy there's no need to look no further  
'Cause everything you want is right here  
And I don't mind giving you what you want  
Just as long as you stay near me Put a message in a bottle baby  
And send it to me  
I'll come running to you  
Because baby  
I'm down  
With the way that you want me to be  
And I would do anything for you baby  
I'm down  
With the way that you want me to be  
And I would do anything for you I have no doubt in my mind you are the one for me  
So there is no need to be insecure see  
I'm so glad to know we got a street thing going on  
So here I am baby, just bring your loving on, on, on Put a message in a bottle, baby  
And send it to me  
And I'll come running to you  
Because baby  
I'm down  
With the way that you want me to be  
And I would do anything for you baby  
I'm down  
With the way that you want me to be  
And I would do anything for you I'm down, I'm down, I'm down, I'm down  
Every thing's gonna be alright  
Every thing's gonna be alright  
Every thing's gonna be alright  
Every thing's gonna be alright I'm down  
With the way that you want me to be  
And I would do anything for you  
I'm down  
With the way that you want me to be  
And I would do anything for you baby I'm down  
With the way that you want me to be  
And I would do anything for you  
I'm down

With the way that you want me to be  
And I would do anything for you baby
